- b. a primary adoption of a child under the age of eight years, or
- c. a permanent foster care of a child under the age of eight.

For the purposes of this Act, employee refers to anybody who is employed in a salaried position in the service of others amounting to at least a 25% of a full-time position each month. Notwithstanding this, the term employee, as used in Section VII, shall apply to all those who are employed in salaried positions in the service of others.

Self-employed individual refers to anybody who works for himself, irrespective of the type of company, to the effect that she/he is obliged to pay an insurance levy every month, or in another manner decided by the tax authorities.

[Full-time studies, for the purposes of this Act, shall mean 75–100% continuous studies, practical or theoretical, in a recognised educational institution within the ordinary educational system in Iceland, lasting at least six months. Furthermore, it shall mean 75–100% studies at university level (third level) and other studies which make the same demands as university studies regarding preparatory education. Individual courses shall not be regarded as studies.]¹⁾

For the purposes of this Act, a woman shall be considered as having recently given birth to a child if the child is 14 weeks old or younger.

¹⁾ Act No. 74/2008, Article 4.

SECTION IV
Maternity/Paternity Leave.

Art. 8

Parents' rights in the labour market.

Under paragraph 1 of Article 1, parents shall each have an independent entitlement to maternity/paternity leave for up to three months due to a birth, primary adoption or reception of a child in permanent foster. This entitlement shall not be assignable. In addition, the parents shall have a joint entitlement to an additional three months, which either parent may draw in its entirety or the parents may divide between them. ... ¹⁾

The right to maternity/paternity leave shall be established upon the birth of a child. However, [a parent]²⁾ shall be permitted to start her/his maternity/paternity leave up to one month prior to the expected birth date, which shall be confirmed by a medical certificate. [The right to maternity/paternity leave in connection with the birth of a child shall expire when the child reaches the age of 18 months.]¹⁾

[A mother]³⁾ shall take maternity leave for at least the first two weeks after the birth of her child.

[Without prejudice to paragraph 1, a parent, *cf.* paragraph 1 of Article 1, shall acquire the right to up to nine months' maternity/paternity leave if the other parent dies during the gestation period of the child and the child is born live.]²⁾

In the case of adoption of a child, or the taking of a child into permanent foster care, the time-reference shall be based on the date when the child enters the home, providing this is confirmed by the relevant child welfare committee, or other competent bodies. If the parents have to fetch the child from another country, the maternity/paternity leave may begin at the start of the journey, providing the relevant authorities or institute have confirmed that permission has been granted for the adoption of a child. [The right to maternity/paternity leave in connection with adoption or permanent foster care shall expire 18 months after the child arrives in the home.]¹⁾

A parent's right to maternity/paternity leave shall be conditional on the fact that the parent herself/himself has custody of the child, or has joint custody with the other parent at the beginning of the maternity/paternity leave, *cf.*, however, paragraph 6.⁴⁾

A non-custodial parent shall be entitled to maternity/paternity leave if the consent of the parent exercising custody is obtained, authorising the non-custodial parent to have access to the child during the period of the maternity/paternity leave.

Should one of the parents die before the child reaches the age of 18 months, the right to maternity/paternity leave which the deceased has not utilized shall revert to the surviving parent. [In the case of adoption or permanent foster care, the time limits stated in [paragraph 5]²⁾ shall apply regarding expiry of rights. In the event of the reversion of rights, the rights of the deceased parent shall become the rights earned by the surviving parent under this Act.]¹⁾

[A parent who, due to illness, the consequences of an accident or the service of a prison sentence, is unable to care for her/his child during the first 18 months after the child's birth, may assign her/his unused entitlement to maternity/paternity leave to the other parent, in part or in its entirety. The same shall apply in cases when, for the same reasons, a parent is unable to attend to a child during the first 18 months after the child arrives in the home under primary adoption or permanent foster-care. This shall apply irrespective of whether or not the parents have joint custody over the child. Exemption may be granted from the requirement that a parent give consent for the assignment of entitlement in cases where the parent is incapable of giving consent due to illness or the consequences of an accident, in which case the Directorate of Labour shall assess whether the conditions for the assignment of entitlement have been met. The fact that, due to illness or the consequences of an accident, a parent is in a condition in which she/he is incapable of looking after the child during the period stated above, or of giving consent for the assignment of entitlement, shall be attested by a medical certificate issued by the specialist attending her/him. The prison authorities shall issue a certificate stating that the parent is to serve a prison sentence during the aforementioned period. When assignment takes place, the entitlement of the assigning parent shall become an entitlement which the other parent has acquired under this Act.]²⁾

Art. 9

Notification of maternity/paternity leave.

When an employee intends to exercise the right to maternity/paternity leave, she/he shall notify her/his employer thereof as soon as possible and at least eight weeks prior to the expected birth date of the child. Should a [parent]¹⁾ wish to change a previously-notified starting date of her/his maternity/paternity leave, *cf.* paragraph 2 of Article 8, [she/he]¹⁾ shall notify her/his employer of this three weeks prior to the new intended starting date of her/his maternity/paternity leave.

Notice of the maternity/paternity leave shall be given in writing and shall state the intended starting date of the leave, its length and its structure. ... ¹⁾ The employer shall then sign the notification with the date of receiving it and deliver a copy thereof to the employee. The employer may demand, if he considers it necessary, confirmation of the fact that the parent has the custody of a child, or that the approval of the custodial parent has been obtained.

¹⁾ Act No. 74/2008, Article 6.

Art. 10

The structure of maternity/paternity leave.

An employee shall have the right to take maternity/paternity leave in a one continuous period.

However, the employee shall be permitted to make arrangements with her/his employer for the maternity/paternity leave to be divided into a number of periods and/or that it will be taken concurrently with a reduced worktime ratio, *cf.*, however, paragraph 3 of Article 8. However, maternity/paternity leave may never be taken in periods of less than [two weeks]¹⁾ at a time. The employer shall make efforts to meet the wishes of the employee regarding the structure of maternity/paternity leave under this provision.

Should the employee wish to arrange her/his maternity/paternity leave under paragraph 2, and the employer is unable to accept her/his wishes, the employer, having consulted the employee, shall propose another arrangement within one week of the date of receiving the notification, *cf.* paragraph 2 of Article 9. This shall be done in writing and the reasons for the altered arrangement shall be stated.

Should no agreement be reached between the employee and her/his employer on the taking of the employee's maternity/paternity leave, the employee shall always have the right to take her/his maternity/paternity leave in one continuous period as of the starting date decided by the employee.

¹⁾ Act No. 90/2004, Article 3.

Art. 11

Safety and health in the workplace.

If the safety and health of a pregnant woman, a woman who has recently given birth to a child, or a woman who is breastfeeding a child, is considered to be in danger according to a special assessment, her employer shall make the necessary arrangements to ensure the woman's safety by temporarily changing her working conditions and/or working hours. If this is not possible for technical reasons, or other valid reasons, the woman's employer shall entrust her with other tasks; if this is not possible, she/he shall grant her leave of absence for the length of time necessary to protect her safety and health. This provision shall be implemented under further rules¹⁾ to be issued by the [Minister of Social Affairs and Social Security.]²⁾

Those changes, which are considered necessary in a woman's working conditions and/or working time, *cf.* paragraph 1, shall not affect her wages so as to reduce them or abridge her other job-related rights.

If it is necessary to grant a pregnant woman leave under this Article, she shall be entitled to payment, *cf.* Article 13.

¹⁾ Regulation No. 931/2000. ²⁾ Act No. 74/2008, Article 7.

Art. 12

Right to maternity/paternity leave in the event of stillbirth and miscarriage.

Parents have a joint right to maternity/paternity leave of up to three months in the event of a stillbirth after 22 weeks of pregnancy. In the event of a miscarriage after 18 weeks of pregnancy, the parents have a joint right to maternity/paternity leave of up to two months.

Art. 13

Parents' rights to payments from the Maternity/Paternity Leave Fund.

[A parent, *cf.* paragraph 1 of Article 1, acquires the right to payments from the Maternity/Paternity Leave Fund after she/he has been active on the domestic labour market for six consecutive months prior to a birth of a child or the date on which a child enters the home in the case of adoption or permanent foster care, *cf.* [paragraphs 2 and 5 of Article 8.]¹⁾ The work contribution of a self-employed parent shall be based on the payment of the insurance levy on calculated remuneration for the same period. [However, in the case of a parent who begins taking maternity/paternity leave before the birth of the child, *cf.* paragraph 2 of Article 8, Article 11 and paragraph 4 of Article 17, the date on which the parent begins taking maternity/paternity leave shall be taken as the base regarding that parent's entitlement.]¹⁾

[The Maternity/Paternity Leave Fund's monthly payment to an employee, *cf.* paragraph 2 of Article 7, during maternity/paternity leave shall amount to 80% of her/his average total wages, these being based on a continuous twelve-month period ending six months prior to the birth of the child or, in the case of an initial adoption or permanent foster-care, prior to the date of arrival of the child in the home. "Wages" here shall include all forms of wage and other remuneration according to the Insurance Levy Act, and also payments from the Maternity/Paternity Leave Fund, payments from the Unemployment Insurance Fund, *per diem* payments for illness and accident injury, payments from trade unions' sick-leave funds, payments from an insurance company due to temporary loss of employment or wage-related payments under Section III of the Act on Payments to the Parents of Chronically Ill or Severely Disabled Children, *cf.* items *a-e* of paragraph 2 of Article 13 *a*. In the case of payments from the Maternity/Paternity Leave Fund, the Unemployment Insurance Fund, trade unions' sick-leave funds, compensation from an insurance company due to temporary loss of employment or wage-related payments under Section III of the Act on Payments to the Parents of Chronically Ill or Severely Disabled Children during the reference period, the reference income on which those payments are based shall be used as a reference, and in no case shall a higher sum be used as a reference, even though the parent has received payment of the difference between those payments and the reference income together with the payments. Only the parent's average total wages for the months during the reference period during which she/he was on the Icelandic labour market shall be used, *cf.* also paragraph 2 of Article 13 *a*. In no case, however, shall the calculation of average total wages be based on fewer than four months.]¹⁾

Notwithstanding the provisions of paragraph 2, the monthly payment from the Maternity/Paternity Leave Fund to a worker during maternity/paternity leave may never exceed [ISK 400,000]²⁾.

When an employee meets the conditions of paragraph 1 but has not worked on the domestic labour market during the reference period as specified in paragraph 2, she/he shall acquire the right to minimum payments under paragraph 6 in accordance with her/his employment ratio.

[The Maternity/Paternity Leave Fund's monthly payment to a self-employed individual, *cf.* paragraph 3 of Article 7, shall amount to 80% of her/his average calculated remuneration on which the insurance levy has been paid, based on the income year preceding the year in which the child is born or, in the case of an initial adoption or permanent foster-care, prior to the year in which the child arrives in the home. In other respects, the provisions of paragraphs 2–4 shall apply, as appropriate.]¹⁾

However, the monthly payment during maternity/paternity leave to a parent in a 25-49% part-time job shall never be less than ISK 65,227, and the monthly payment to a parent holding a 50-100% job shall never be less than ISK 91,200.

The amount of maximum payments under paragraph 3 and minimum payments under paragraph 6 shall be revised in connection with the enactment of the Fiscal Budget every year to take account of trends in wages, price levels and the economy. However, the [Minister of Social Affairs and Social Security]¹⁾ shall be authorized, with the approval of the government, to raise this amount if significant changes in wage trends and conditions in the national economy take place after the enactment of the Fiscal Budget. When the aforementioned conditions result in an increase in the amount of the maximum or minimum payments, the [Minister of Social Affairs and Social Security]¹⁾ shall change the amount by means of a regulation.³⁾

Payments during maternity/paternity leave shall be made retrospectively, for the preceding month or part of a month, on the first working day of each month.

A parent's right to receive payments during maternity/paternity leave shall be subject to her/his meeting the conditions for the right to maternity/paternity leave under Article 8. Payments from an employer to a parent on maternity/paternity leave that are higher than the difference between payments from the Maternity/Paternity Leave Fund and the parent's average total wage under paragraph 2 or 5 shall be deducted from payments from the Maternity/Paternity Leave Fund. [Only those payments made by an employer that are intended to be for the period during which the parent is on maternity/paternity leave shall be deducted from payments from the Maternity/Paternity Leave Fund.]¹⁾ Nevertheless, wage increases that are provided for under collective wage agreements, other payments according to collective wage agreements and wage changes that can be attributed to changes in the parent's work may be taken into consideration.

A parent on the domestic labour market who is entitled to maternity/paternity leave under Article 8 but does not meet the conditions of paragraph 1 shall be entitled to a maternity/paternity grant under Article 18, *cf.* however [paragraph 12 of Article 19.]¹⁾ Payments from an employer to a parent on maternity/paternity leave that are higher than the difference between a maternity/paternity grant and the parent's average total wage shall be deducted from the grant. Calculation of the average total wage under this paragraph shall be based on the two months preceding the [date of birth]¹⁾ of a child or the date when a child enters the home in the case of adoption of permanent foster care.

[When a parent has worked on the domestic labour market for at least the last month of the entitlement period according to paragraph 1, the Directorate of Labour shall, to the extent necessary, take account of her/his periods of employment as an employee or as a self-employed individual in another member state of the Agreement on the European Economic Area, the Nordic Agreement on Social Security, the Convention on the European Free Trade Association or the Agreement between Iceland, on the one hand, and the government of Denmark and the home-rule administration of the Faroe Islands, on the other, during the entitlement acquisition period, providing that the parent's work earned her/his entitlement under the legislation of that state regarding maternity/paternity leave. A condition for this shall be that the parent began work on the domestic labour market within ten working days of stopping work on the labour market of the other state within the EEA, or another Nordic state, another EFTA state or the Faroe Islands. The parent shall submit the required certificate of accrued employment periods and insurance periods in the other state, according to the provisions of the agreements, together with her/his application for payments from the Maternity/Paternity Leave Fund under Article 15.

The Minister of Social Affairs and Social Security may issue regulations³⁾ containing further provisions on payments from the Maternity/Paternity Leave Fund covering, e.g., the assessment of the entitlements of self-employed individuals, the entitlements of those who are employed on the domestic labour market but are legally exempt from the payment of the insurance levy, the entitlements of those who have worked in other member states of the Agreement on the European Economic Area, *cf.* also the deeds that have been incorporated in Protocol VI to the Agreement, the Nordic Agreement on Social Security, the Convention on the European Free Trade Association or the Agreement between Iceland, on the one hand, and the government of Denmark and the home-rule administration of the Faroe Islands, on the other, and the payments from employers that may be taken into account when making calculations under paragraph 9.]¹⁾⁴⁾

[Art. 13 a

Participation in the labour market.

For the purposes of Section IV, participation in the domestic labour market shall mean working in the service of others, in at least 25% of full-time working capacity each month, or working in one's own business operation, irrespective of its corporate structure, to the extent in which the person concerned is obliged to pay the insurance levy each month or at other regular intervals as decided by the tax authorities. Full-time work is considered as being 172 working hours per month, though in all cases consideration shall be given to the number of working hours defined as full-time work in a collective agreement.

The following shall also be regarded as constituting participation in the labour market:

- a. annual leave or other leave according to law, a collective agreement or an employment contract, even though it may be partly or entirely unpaid,

- e. the time during which a parent receives wage-related payments under Section III of the Act on Payments to the Parents of Chronically Ill or Severely Disabled Children, or would have been entitled to such payments if she/he had applied for them to the State Social Security Institute.

The Directorate of Labour shall assess, on the basis of the Unemployment Insurance Act, whether a parent would have been entitled to unemployment benefit if the parent had registered as being unemployed during the relevant period, *cf.* item *b* of paragraph 2.

The State Social Security Institute shall assess, on the basis of the Unemployment Insurance Act, whether a parent would have been entitled to *per diem* payments for illness and accident injury if the parent had applied for them for the period in question, *cf.* item *c* of paragraph 2.

The State Social Security Institute shall assess, on the basis of the Act on Payments to the Parents of Chronically Ill or Severely Disabled Children, whether a parent would have been entitled to wage-related payments under Section III of the Act if the parent had applied for them.]¹⁾

Applications to [the Directorate of Labour].¹⁾

A parent, *cf.* paragraph 1 of Article 1, shall apply for payment during maternity/paternity leave to [the Directorate of Labour]¹⁾ six weeks prior to the expected birth of the child. [If a parent wishes to begin taking maternity/paternity leave prior to the estimated birth date, *cf.* paragraph 2 of Article 8, she/he shall be obliged to inform the Directorate of Labour of this three weeks prior to the intended starting date of maternity/paternity leave.]²⁾

[The application shall be made in writing on a special form and shall be accompanied by a copy of the notifications of maternity/paternity leave according to Article 9 which the parents have had approved by their employers, stating the intended starting date, length and structure of the leave to be taken by each of the parents separately. When a parent is a self-employed individual, this shall be stated in the application, stating the intended starting date, length and structure of the leave to be taken. The application shall be signed by the parents, providing that they both have custody of the child. Non-custodial parents shall sign the application if the parent meets the requirements of paragraph 7 of Article 8. If a parent has received higher payments from the Maternity/Paternity Leave Fund than she/he should have received according to the tax levied by the tax authorities, or for other reasons, then she/he shall pay back the excess with a 15% supplement. This interest shall be equivalent to the rate determined by the Central Bank of Iceland and published at any given time under paragraph 1 of Article 8 of the Interest and Indexation Act, No. 38/2001. The same shall apply when the conclusion reached by the Maternity/Paternity and Parental Leave Appeal Committee is that the parent was entitled to payments from the Maternity/Paternity Leave Fund but was either denied such payments or was awarded lower payments. SECTION VI

Parents not active in the labour market or attending full-time educational programmes.

Art. 18

Maternity/paternity grants to a parent who is not active in the labour market.

Parents who are not active in the labour market, or who are employed in less than 25% of a full employment position, shall each have a separate entitlement to a maternity/paternity grant for up to three months in connection with a birth, primary adoption or reception of the child in permanent foster care. This entitlement shall not be assignable. In addition, parents shall have a joint entitlement to a maternity/paternity grant for an additional three months, which either parent may draw in its entirety or the parents may divide between them. The right to a maternity/paternity grant [in connection with the birth of a child]¹⁾ shall lapse when the child reaches the age of 18 months.

[Without prejudice to paragraph 1, a parent who is outside the labour market, or in less than 25% of full employment each month, shall acquire the right to a maternity/paternity grant for up to nine months if the other parent has died during the gestation period of the child and the child has been born live.]²⁾

[The maternity/paternity grant shall be ISK 40,409 per month. A parent must be domiciled in Iceland at the time of the birth of a child, adoption or beginning of permanent foster care, and must have been domiciled in Iceland for the 12 months preceding that date.

[If the parent was legally domiciled in Iceland for at least the last month preceding the birth of the child, the Directorate of Labour shall, to the extent necessary, take account of her/his periods of residence in another member state of the Agreement on the European Economic Area, the Nordic Agreement on Social Security, the Convention on the European Free Trade Association or the Agreement between Iceland, on the one hand, and the government of Denmark and the home-rule administration of the Faroe Islands, on the other, during the entitlement period when assessing whether the parent meets the conditions regarding domicile laid down in paragraph 3, providing that the parent was insured at the same time in that state and that not more than one month has elapsed since the end of the insurance period according to the laws of that state. The parent shall submit the required certificates demonstrating her/his period of residence and insurance in the other state in question in accordance with the provisions of the agreements, together with her/his application for payments from the Maternity/Paternity Leave Fund under Article 23.]²⁾

The amount of the maternity/paternity grant shall be revised in connection with the enactment of the Fiscal Budget every year to take account of trends in wages, price levels and the economy. However, the [Minister of Social Affairs and Social Security]²⁾ shall be authorized, with the approval of the government, to raise this amount if significant changes in wage trends and conditions in the national economy take place after the enactment of the Fiscal Budget. When the aforementioned conditions result in an increase in the amount of the maternity/paternity grant, the [Minister of Social Affairs and Social Security]²⁾ shall change the amount by means of a regulation.³⁾¹⁾

Regarding adoption, or permanent foster care of a child, the payment of the maternity/paternity grant to the parents shall be made on the basis of the time when the child enters the home, providing this is confirmed by the child welfare committee in question, or other competent bodies. If the parents have to fetch the child from another country, the payment of the maternity/paternity grant could start at the beginning of the journey, providing the relevant authorities or institute have confirmed that permission has been granted for the adoption of a child. [The right to a maternity/paternity grant in connection with adoption or permanent foster care shall expire 18 months after the child enters the home.]¹⁾

A parent's rights to a maternity/paternity grant shall be conditional on the fact that the parent himself/herself has custody of the child, or has joint custody with the other parent when the payment of the maternity/paternity grant has begun, [see, however, paragraph 8.]²⁾

[A non-custodial parent shall be entitled to a maternity/paternity grant if the consent of the parent exercising custody is obtained, authorising the non-custodial parent to have access to the child during the period covered by the payment of the maternity/paternity grant.]²⁾

Payments of a maternity/paternity grant to a parent shall be made in retrospect, on the first working day of each month, covering the previous month.

If one of the parents exercises part of the parents' joint right to a maternity/paternity leave, and receives payment from the Maternity/Paternity Leave Fund under Art. 13, the period of payment of the maternity/paternity grant shall be shortened accordingly.

[If either parent dies before the child reaches the age of 18 months, any entitlement to a maternity/paternity grant that the deceased parent has not already used shall revert to the surviving parent. In the case of adoption or permanent foster care, the time references stated in [paragraph 6]²⁾ shall apply regarding the expiry of rights. In the event of the reversion of rights, the rights of the deceased parent shall become the rights earned by the surviving parent under this Act.]¹⁾

[A parent who, due to illness, the consequences of an accident or the service of a prison sentence, is unable to care for the child during the first 18 months after the child's birth, may assign her/his unused entitlement to a maternity/paternity grant to the other parent, in part or in its entirety. The same shall apply in cases when, for the same reasons, a parent is unable to attend to a child during the first 18 months after the child arrives in the home under primary adoption or permanent foster-care. This shall apply irrespective of whether or not the parents have joint custody of the child. Exemption may be granted from the requirement that a parent give consent for the assignment of entitlement in cases where the parent is incapable of giving consent due to illness or the consequences of an accident, in which case the Directorate of Labour shall assess whether the conditions for the assignment of entitlement have been met. The fact that, due to illness or the consequences of an accident, a parent is in a condition in which she/he is incapable of looking after the child during the period stated above, or of giving consent for the assignment of entitlement, shall be attested by a medical certificate issued by the specialist attending her/him. The prison authorities shall issue a certificate stating that the parent is to serve a prison sentence during the aforementioned period. When assignment takes place, the entitlement of the assigning parent shall become an entitlement which the other parent has acquired under this Act.

The Minister may issue regulations containing further provisions on the application of this provision.]²⁾

Art. 19

Maternity/paternity grant to parents attending full-time educational programmes.

[Parents who were occupied in full-time studies for at least six months during the twelve months immediately preceding the birth, primary adoption or reception of a child in permanent foster-care, and demonstrated satisfactory academic achievement, shall each have a separate independent entitlement to a maternity/paternity grant for up to three months in view of the birth, primary adoption or reception of the child in permanent foster-care. This entitlement is not assignable. In addition, the parents shall have a joint entitlement to a maternity/paternity grant for an additional three months, which either parent may draw in its entirety or the parents may divide between them. Parents shall submit a certificate from the relevant educational institution stating that she/he has been registered in

a full-time programme of studies and demonstrated satisfactory academic achievement. Pursuit of studies, rather than academic achievement, during the academic semester in which the child is born, may be taken into account. Entitlement to maternity/paternity grants expires when the child reaches the age of 18 months.]¹⁾

[Without prejudice to paragraph 1, a parent who was occupied in full-time studies for at least six months during the twelve months immediately preceding the birth, primary adoption or reception of a child in permanent foster-care, and demonstrated satisfactory academic achievement shall acquire an entitlement to a maternity/paternity grant for up to nine months if the other parent died during the gestation period of the child and the child was born live.]¹⁾

[The maternity/paternity grant to a parent in a full-time programme of studies shall be ISK 91,200 per month. Normally, the parent shall be domiciled in Iceland at the time of the birth, adoption or beginning of the period of permanent foster care and shall have been domiciled in Iceland for the last 12 months preceding that date. Exemptions from the condition regarding domicile may be granted, however, if the parent has transferred her/his domicile temporarily in connection with studies overseas, providing that the parent was domiciled in Iceland continuously for at least five years before the transfer. [The same shall apply when the parent has changed her/his legal domicile on a temporary basis and is pursuing studies at an Icelandic educational institution by distance learning, providing that she/he has been domiciled in Iceland continuously for at least five years prior to the change and meets the other conditions applying to maternity/paternity grants to parents in full-time study programmes.]¹⁾ If the parent receives payments in connection with the same birth, adoption or permanent foster care in the country where she/he is domiciled, these shall be deducted from the maternity/paternity grant, *cf.* paragraph 3 of Article 33.

[If a parent was legally domiciled in Iceland for at least the last month preceding the date of birth of the child, the Directorate of Labour shall, to the extent necessary, take account of the parent's periods of residence in another member state of the Agreement on the European Economic Area, the Nordic Agreement on Social Security, the Convention on the European Free Trade Association or the Agreement between Iceland, on the one hand, and the government of Denmark and the home-rule administration of the Faroe Islands, on the other, during the entitlement acquisition period when assessing whether the parent meets the domicile requirements of paragraph 3, providing that the parent was insured at the same time in the other state and that not more than one month has elapsed since the end of the insurance period according to the laws of that state. The parent shall submit the required certificates demonstrating her/his period of residence and insurance in the other state in question in accordance with the provisions of the agreements, together with her/his application for payments from the Maternity/Paternity Leave Fund under Article 23.]¹⁾

The amount of the maternity/paternity grant shall be revised in connection with the enactment of the Fiscal Budget every year to take account of trends in wages, price levels and the economy. However, the [Minister of Social Affairs and Social Security]¹⁾ shall be authorized, with the approval of the government, to raise this amount if significant changes in wage trends and conditions in the national economy take place after the enactment of the Fiscal Budget. When the aforementioned conditions result in an increase in the amount of the maternity/paternity grant, the [Minister of Social Affairs and Social Security]¹⁾ shall change the amount by means of a regulation.²⁾³⁾

Regarding adoption, or permanent foster care of a child, the payment of the maternity/paternity grant to the parents shall be made on the basis of the time when the child enters the home, providing this is confirmed by the child welfare committee in question, or other competent bodies. If the parents have to fetch the child from another country, the payment of the maternity/paternity grant may begin at the start of the journey, providing the relevant authorities or institute have confirmed that permission has been granted for the adoption of a child. [The right to a maternity/paternity grant in connection with adoption or permanent foster care shall expire 18 months after the child enters the home.]¹⁾

A parent's rights to a maternity/paternity grant shall be conditional on the fact that the parent herself/himself has custody of the child, or has joint custody with the other parent when the payment of the maternity/paternity grant is begun, [see, however, paragraph 8.]¹⁾

[A non-custodial parent shall be entitled to a maternity/paternity grant if the consent of the parent exercising custody is obtained, authorising the non-custodial parent to have access to the child during the period covered by the payment of the maternity/paternity grant.]¹⁾

Payments of a maternity/paternity grant to a parent shall be made in retrospect, on the first working day of each month, covering the previous month.

If one of the parents exercises part of the parents' joint right to a maternity/paternity leave, and receives payment from the Maternity/Paternity Leave Fund under Article 13, the period of payment of the maternity/paternity grant will be shortened accordingly.

[The maternity/paternity grant as provided for under paragraph 1 may be paid to a parent even though the condition regarding a continuous full-time programme of study during at least six months out of the 12 months preceding the birth, first adoption or period of permanent foster care is not met, providing that the parent was in continuous employment on the domestic labour market for at least six months preceding the date on which the programme of studies began.

Furthermore, a parent may be paid a maternity/paternity grant as a student when the parent has completed at least one term of studies under paragraph 1 and has been on the labour market continuously thereafter. The condition is that the programme of studies and employment shall have lasted for at least six continuous months.

[A maternity grant may be paid to a mother under paragraph 1 even though she does not meet the requirement regarding satisfactory academic achievement and/or pursuit of studies, providing that she was not able to pursue studies during the pregnancy due to health reasons. The mother shall submit a medical certificate from the specialist who attended her during the pregnancy in confirmation of this, together with a certificate from the educational institution stating that she was registered in a full-time programme of studies. The Directorate of Labour may request a comment from another medical specialist.]¹⁾

If either parent dies before the child reaches the age of 18 months, any entitlement to a maternity/paternity grant that the deceased parent has not already used shall revert to the surviving parent. In the case of adoption or permanent foster care, the time references stated in [paragraph 6]¹⁾ shall apply regarding the expiry of rights. In the event of the reversion of rights, the rights of the deceased parent shall become the rights earned by the surviving parent under this Act.

[A parent who, due to illness, the consequences of an accident or the service of a prison sentence, is unable to care for her/his child during the first 18 months after the child's birth, may assign her/his unused entitlement to a maternity/paternity grant to the other parent, in part or in its entirety.
